Notes:

I plan to go to law school and get a joint JD/MBA. After I graduate from Cornell I plan to work a couple years before I go straight through. I am particularly interested in the Food and Consumer Packaged Goods industry. My goal is to learn more about food policy and environmental issues so that I can have a greater impact at home and find solutions to solve these issues in my home town.

I am open to many different career at this point. My biggest goal is to continue developing transferable skills so that I can be marketable to any organization. With the help of Cornell Football and Coach De Stefano I want to put myself in a position to be successful. I am extremely grateful, so any company that gives me an opportunity will get outstanding effort from me.

Internship/Externship Experiences:

Summer 2017: Program Assistant for Prefreshman Summer Program

Spring 2016: Externship with PepsiCo R&D in Barrington, Illinois. I worked with Gatorade and created my own flavor of Gatorade from scratch.
